Faculty Club Will Move To Spindletop Hall

The roles of Spindletop Hall and Carnalian House were switched at a meeting of the Kentucky Research Foundation Board of Directors May 29.

Under the change, Spindletop Hall will become the home of the University of Kentucky faculty-staff-alumni house, a self-sustaining organization, and Carnahan.

Since it was organized in 1958, the club has grown to 625 memberships representing nearly 2,500 University-sponsored meetings, and seminars.

Approval of the moves, recommended by University President Frank G. Dickey and Dr. Frank D. size of the swimming pool doubled, and the first day of registers on the first day of registers.

Approval of the moves, recom-mended by University President Frank G. Dickey and Dr. Frank D. Peterson. University vice presi-dent for business administration and president of the UK facultystaff-alumnl house, came at the annual dinner meeting of KRF.

The KRF directors authorized the faculty-staff-alumni club membership to move to Spindletop Hail when the mansion can be adequately furnished. Meetings conference, and seminars now be-ing held at Spindletop Hall will

size of the swimming pool doubled, according to a survey of the fa-culties by two committees.

ellities by two committees.

Generally, Spindletop is much too large for a conference-seminar site, Peterson said. The Spindletop pool, twice the size of the one at Carnahan, will be more than adequate for the membership.

Dr. Peterson said that Carnahan House will provide ample space and is much more adaptable for institutes, conferences, and seminars. University-sponsored

3,000 Will Convene At Engineering Meet

By WESLEY ROSS

The largest convention to ments. meet on campus will convene Monday with some 3,000 engithe 69th annual meeting of the American Society for Engineer
The 19th American Society for EngineerThe 19th American Socie ing Education.

Dr. Frank J. Weleh, assistant secretary of Agriculture and dean of the College of Agriculture and Home Economics on leave, will be the principal speaker on June 30. Dr. Welch will speak on "Needs and Opportunities in World Food Production, Processing and Distribution," at 11 a.m. in Guignol Theotor. Theater.

The theme of engineering's foreign relations will be stressed by leading speakers during the five-day meeting. Among them are Paul G. Hoffman, managing director of the United Nations Special Fund, speaking on "Inter-actional Relations in Engineer-actional Relations in Engineer-The theme national Relations in Engineering," and Dr. Merriam H. Trytten, director of the Office of Scientific Personnel for the National Research Council-National Acade-

Enrollment Runs 2,900

Approximately 2,800-2,900 students enrolled at the University on the first day of registeration according to preliminary figures released by Dr. Charles F. Elton, Dean of Admissions and Registrar.

Dean Elton said he expected this summer's enrollment to exeeed last year's by about 200 after the final figures are compiled when registration ends next Sat-

Seventy-five percent of those enrolled this summer are Educa-

my of Sciences. Dr. Trytten's topic is "Selection of Engineers and Scientists for Foreign Assign-

UK Museum Director Explores Grand Canyon

Dr. Douglas W. Schwartz, director of the University Museum of Anthropology, is exploring the bottom of the Grand Canyon this month in an effort to learn about Indians who supposedly lived there from 1050 to 1150 A.D.

He is accompanied by Robert A. hole in the bottom of the canyon at UK, and Berle Clay, Paris, a graduate student in anthropology.

On their own mythology, he sagment of the bottom of the canyon at UK, and Berle Clay, Paris, a on their own mythology, he sagment of the bottom of the canyon at UK. Wiggs is making diagrams and drawings of the terrain because photographs do not give a good perspective.

Schwartz has been surveying the Schwartz has been surveying the vast rim of the canyon each summer for the past 10 years. On June 11, a helicopter deposited the three-man party on the base of the canyon. There the men inflated life rafts and loaded them with supplier They will, travel for 14 supplies. They will travel for 14 days along a river in the 217-mile long and 220-mile wide eanyon which ends in the 30-foot Granite Falls.

The Hopi Indians, who live near the Grand Canyon, Dr. Schwartz said, have a bit of folklore which states that the tribe came from a

"Maybe we can shed some light on their own mythology," he said Dr. Sehwartz and his party will seek to learn if Indians at any time ever lived beside the river time ever lived beside the river bottom, what role the river play-ed in their lives, whether they farmed there, and why they left after only about 100 years. An experienced outdoor cook and cance enthusiast, Prof. Wiggs is

in charge of food preparation.

The trip is financed by a \$750 faculty research grant, which is being used to purchase supplies, food, film, and pay travel expenses. The National Park Service when her product a grant of \$500 for the park of the part of \$500 for the park of the park aiso has made a grant of \$500 for the helicopter expenses. The Park Service has cooperated with Dr. Schwartz for many years because it is anxious to obtain more in-formation about the eanyon to present to visitors who flock to that area—four million strong each year.

Several years ago, Dr. Schwartz Several years ago, Dr. Schwartz lived for six months with an Indi-an tribe in the canyon. Until this year, he has loaded a 70-pound supply pack and carried it down into the canyon.

123 Make Spring Semester Dean's List

Names of 123 students are included on the dean's list of the University's College of Arts and Sciences, released by Dean M. M. White.

M. White.

To be eligible for the dean's list, a student must have compiled a 3.6 standing on UK's 4.0 grade scale for the spring semester.

The dean's list includes Judith Ann Abbott, Louisville; William David Angel, Huntington, W. Va.; Thomas Lee Arnold, Flemingsburg; Nancy Ellen Bidwell, Lexington; Mildred Eva Borchevsky, Alexandria, Va.; David Straker Bowman, Chattanooga, Tenn.; Phillip Vaughn Brooks, Lexington; Lucian Francis Burke, Prestonsburg. cian Francis Burke, Prestonsburg; Celia Anne Butler, Parkersburg, Mary

Spindletop Director Proposes Center

The Spindletop Research Institute has proposed a plan to Kentuckians live longer with fewer disabilities and with acced physical and mental anguish and strain.

The musical by Rodgers and Hammerstein will be presented August 1-5. It is a joint production of the Guignol Theater and the Opera work shop of the Department of Music. help Kentuckians live longer with fewer disabilities and with reduced physical and mental anguish and strain.

symptoms.

Dr. E. Litkenhouse, director of the Spindletop Research Institute, outlined the plan in the form of a proposal for a safety research and service center to be located at Spindletop Farm.

The plan was outlined at the windup session of last week's Kentucky Safety Seminar meeting in Lexington.

"Detailed study of practically any accident by qualified but im-partial investigators almost in-variably reveals that the accident could have been prevented by proper action on the part of the individual involved," Dr. Litken-house said in prefacing his pro-

posal.

Explaining that major industries had had practically eliminated accidents through such gathering, compiling, and dissemination of information on causes of accidents, he stated that there is no reason why similar research cannot go a long way in improving the Kentucky accident situation

tucky accident situation.

The Spindletop project would provide safety research into such areas as home, industry, and business; transportation and highway; recreational, fire and police techniques; in stitutions and species, forming and forestructure. schools; farming and forestry; mining; construction and military

Dr. Litkenhouse proposed three phases of activity at the safety research center. They are:

1. Accumulation, classification, and dissemination of known and existing information and tech-

2. Research and development of new and improved methods of safe living.

Promotion of the utilization the research results through

of the research results through the proper agencies and channels. "The real key to improvemnt in safety performances lies in the ap-plication of technical principles, techniques, and the proper utilization of information," Dr. Litkenhouse stated.

Euclid Underpass To Be Constructed

A "bilster-type" underpass will be constructed on Euclid Avenue near Harrison Avenue as part of the current street-widening pro-

gram.

The underpass would be constructed by building up the street on both sides, leaving a 30-foot gap for a passageway.

Dr. Frank G. Dickey said the construction of a conventional-type underpass, with steps going down and up, had been ruled out on the grounds that such a structure would be dangerous to the coeds for whose use it would be principally intended.

The idea of an overpass had also been rejected on the grounds that large numbers of students would fail to use it.

"Some type of structure thought necessary because large number of students crossing Euclid Avenue would tend to de-feat the purpose of widening the street, as well as create danger to pedestrians," Dr. Dickey sald.
